Decision on submission 1042 of VIS 2019

Petra Isenberg, Miriah Meyer, and Jo Wood <vis19b@precisionconf.com>
to me

Dear Aditeya Pandey,

Congratulations! We are delighted to inform you that your paper

1042 - CerebroVis: Designing an Abstract yet Spatially Contextualized

was definitively accepted for presentation at IEEE VIS 2019 InfoVis Paper Session, IEEE Transactions on Visualization and Computer Graphics (TVCG).

IMPORTANT

Please carefully read ALL of this email! The timeline for the remainder of

August 1: Final camera-ready papers, supplemental materials, and final

August 15: 25-second fast forward and preview video due (separate submission)

Note that only papers that strictly conform to the formatting requirements are accepted. Please read the formatting requirements carefully: <http://ieeevis.org/year/2019/info/presenter-information/final-info>

Before you submit your final, camera-ready version, please carefully confirm the following:

* In some cases during the second round review, the primary reviewers may have comments. Please address these comments and requests before submitting your final "Comments" header in the primary review.

* If you have annotated your revisions in the paper itself during the second round review, please make sure the final submission is camera-ready, i.e., ready to be included in the proceedings AS IS.

* Any anonymization must be removed, and author names and affiliation should be included. Do consider thanking the reviewers if they have helped with your camera-ready submission.

* Please make sure the final submission data in PCS is *identical* to the data in the PCS login in order to update the author information. Due to tight publication deadlines, we cannot make any changes after the final submission.

* Double-check that your paper fully conforms to the TVCG journal format. Please refer to the TVCG format guidelines for more information.
